– quality control of the students' assimilation of the program material of the educational discipline, which is conducted at the end of the modules in the form of colloquiums.

An obligatory form of independent work of students is the preparation of a final written work. The maximum number of points based on the results of the defense of the final written work is 20 points.

The form of *final control of the* knowledge of higher education students in an academic discipline is a differentiated assessment. Minimum number of points to receive differentiated assessment - 60 points.

Distribution of points between forms of organization of the educational process
and types of control measures:

Current control				Final knowledge assessment (differentiated credit)
Module No. 1	Module No. 2	Module No. 3	Independent work of students	

p/z	Colloquium	p/z	Colloquium	p/z	Colloquium		
max 10	max 7	max 30	max 16	max 10	max 7	max 20	max 100

6. Criteria for evaluating learning outcomes

type of control	Scores	Criteria (for each assessment)
Current control in a practical session	Max 5	Excellent assimilation of educational material on the topic, some minor shortcomings are possible.
	4	Good assimilation of the material on the topic, but there are some mistakes .
	3	Satisfactory level of assimilation of the material, a significant number of errors .
	Min 0	Unsatisfactory level of assimilation of the material.
Colloquium	Mach 7 (1, 3 modules) or 16 points (2 module)	The results of processing the material are high, a small number of insignificant errors are possible.
	Mach 4 (1, 3 modules) or 8 (2 module)	Satisfactory level of assimilation of the material, a significant number of errors.
	Minimum 0	Unsatisfactory level of assimilation of the material.
Individual final written work	Mach 20	The work is designed in accordance with the requirements of the department. The work does not contain methodological errors, there are references to sources and own conclusions. In the defense, in-depth knowledge of the topic is demonstrated, as well as proof of conclusions, positions, classifications, etc.
	15	The work is designed in accordance with the requirements of the department. The work contains minor methodological errors, there are references to sources, there are own conclusions. During the defense, sufficient knowledge of the topic is demonstrated, as well as proof of conclusions, positions, classifications, etc.
	10	The work is designed in accordance with the requirements of the department, but with minor errors. The work contains methodological and content errors, there are references to sources, there are own conclusions. During the defense, sufficient knowledge of the topic was demonstrated, but there were problems with the argumentation of individual concepts and judgments in the work, the proof of conclusions.
	5	The work was prepared with errors and violations of cathedral requirements regarding the form of work. The work contains methodological and substantive errors, an insufficient number of sources were used to substantiate the research and conclusions. During the defense, difficulties arose regarding the disclosure of the content of the topic, providing arguments regarding individual provisions of the work and the validity and provenance of the

		conclusions.	
	Minimum 0	The work is improperly designed, without references to sources, and contains methodological errors. During the defense, the author of the work cannot demonstrate knowledge of the chosen topic, provide arguments for concepts and perform information analysis. The work was performed in violation of the requirements of academic integrity.	
Differentiated scoring	100	1. Comprehensive, systematic and deep knowledge of the material provided by the curriculum of the academic discipline, including orientation in the main scientific doctrines and concepts of the academic discipline. 2. Learning the main and additional literature recommended by the department. 3. Ability to independently replenish knowledge of the academic discipline and use the acquired knowledge in practical work.	
	90	1. Complete knowledge of the material provided by the curriculum of the academic discipline. 2. Mastering the basic literature and getting to know the additional literature recommended by the department. 3. Ability to independently replenish knowledge of the discipline, understanding its importance for practical work.	
	85	1. Sufficiently complete knowledge of the material provided by the program of the educational discipline, in the absence of significant errors in the answer. 2. Learning the basic literature recommended by the department. 3. Ability to independently replenish knowledge of the discipline, understanding its importance for practical work.	
	75	1. Knowledge of the basic material provided by the curriculum of the academic discipline, in an amount sufficient for further study and future work in the profession. 2. Learning the basic literature recommended by the department. 3. Errors and significant inconsistencies in the answer to the assessment if there is knowledge to eliminate them independently or with the help of the teacher.	
	with calculated	70	1. Knowledge of the basic material provided by the curriculum of the academic discipline, in an amount sufficient for further study and future work in the profession. 2. Acquaintance with the basic literature recommended by the department. 3. Errors in the answer to the test in the presence of knowledge to eliminate the most significant errors with the help of the teacher.
		60	1. Gaps in knowledge of certain parts of the main material provided by the curriculum of the academic discipline. 2. The presence of errors in answering questions on the test.
not counted	55	1. Lack of knowledge of a significant part of the main material provided by the program of the academic discipline. 2. Impossibility to continue studying or carry out professional activities without passing a repeated course in this discipline.	

7. Pedagogical control for students of higher education full-time/ part-time teaching
