1. Introduction

1.1. The aim and tasks of the academic discipline.

The academic discipline aims to provide students with a comprehensive system of knowledge about: international legal foundations of regulation of international trade in goods and services in the context of modern phenomena and trends; WTO legal system; the content of WTO agreements, which constitute the "package of WTO documents", and the degree of their application in the domestic legislation of WTO members, primarily in Ukraine; the state of the existing international trade legal order, shortcomings and problems of its development; doctrinal and normative approaches to the legal regulation of relations in the WTO system related to the conclusion, implementation and withdrawal from the "package" of WTO agreements; and to prepare students for independent innovative solutions to professional tasks, and in particular drafting appeals to the WTO.

Tasks:

- formation of theoretical knowledge in the field of WTO law and understanding of its integral categories, namely, regarding the general provisions of agreements and relevant legal acts which regulate the international trade legal order;
- developing the skills of interpretation and application of WTO law, identification and legal substantiation of precedents and legislation in professional activity by legal speciality;
- acquisition by the students of the skills to clearly express and defend personal positions and decisions on a specific task on WTO law;
- development of the students' skills to carry out effective scientific research;
- formation of skills to use national and international sources of information when preparing for practical classes on WTO law;
- mastering the competencies formed during the study of the disciplines of general and professional training, and optional disciplines;
- development of professional worldview, completion of professional self-determination;

- acquisition of initial professional experience necessary for "soft" entry into the profession;

- mastering the testing tools and rules of its conduct.

1.1. The status of the discipline in the structure of the educational and professional programme: compulsory.

1.2. Prerequisites: "The European Union Law and its System" "Legal Regulation of the EU Internal Market", "Topical Issues of Scientific Research Methodology".

1.3. Co-requisites: "International Contract Law", "European Private International Law".

1.4. Post-requisites: "International Intellectual Property Law", "EU Corporate Law and Governance", "Notary and Notarial Actions of Consular Institutions", "Problems of Law Enforcement (professional and practical competences)".

1.6. The list of subject competencies:

SC 1. Ability to formulate and express personal position supported by the arguments as to the current issues of WTO law.

SC 2. Knowledge of general theoretical concepts and concepts of WTO law, principles of WTO law, their correlation with the principles of other branches of international law, as well as the content, specificity, and the current state of development of the main WTO law institutions.

SC 3. Knowledge of the stages of formation, periodization of development, concepts and approaches to defining the concept of WTO law and its place in the system of international public law.

SC 4. Ability to analyze legal phenomena, legal facts, legal norms and legal relations related to the subject of WTO law.

SC 5. Ability to determine the legal status of various participants in international relations, the scope of their international legal personality in the relevant field and the possibility to impact on international trade policy.

SC 6. Ability to provide a general international legal description of the leading international intergovernmental organizations in the energy sector.

SC 7. Ability to analyze, interpret, and correctly apply the categories of WTO law which have been studied.

SC 8. Ability to correctly interpret and apply rules of WTO law in professional activity and explain the specificity of applying various sources of WTO law.

SC 9. Ability to independently identify and research legal issues arising in the context of legal regulation of international trade relations in various areas.

SC 10. Ability to explain the peculiarities of international legal regulation of relations in the field of trade and the specificity of the competence of various participants in these relations.

SC 11. Knowledge and understanding of the main provisions of legal regulation of various activities of WTO legal entities in the field of trade, transportation, transit of goods and services.

SC 12. Knowledge and understanding of the specificity of current legal regulation of relations between various subjects of WTO law.

SC 13. Ability to determine environmental protection aspects of international legal cooperation in the field of trade, assess prospects, identify directions for further greening of international trade relations in view of initiatives to counteract and combat climate change, prevent and respond to pollution of the atmosphere, marine environment, etc.

SC 14. Ability to conduct legal expertise of WTO agreements and acts of domestic law which relate to international trade activities.

SC 15. Ability to assess the degree of effectiveness of legal regulation of certain spheres of international energy relations and determine the prospects for the development of relevant legal regulation.

SC 16. Ability to identify the shortcomings of current approaches to the legal regulation of certain spheres of international trade relations and propose ways to improve them.

SC 17. Knowledge of the main mechanisms and procedures of dispute resolution and ability to reproduce the main approaches and methods of dispute resolution used by international judicial and arbitration institutions using game simulation.

SC 18. Ability to use information technologies and databases in the process of collecting and processing information within a specific topic in the field of WTO law.

SC 19. Ability to conduct analytical research into the theory and practice of WTO law.

SC 20. Ability to provide qualified consultations and legal opinions on specific issues of the theory and practice of WTO law.

SC 21. Ability to analyze documents of international organizations, international conferences, international judicial institutions and characterize their impact on the regulation of various spheres of international trade relations.

SC 22. Ability to identify and evaluate current challenges in the field of international trade security, knowledge of the main international acts and organizational means of maintaining international trade security.

SC 23. Ability to work with international acts in various spheres of international trade relations, including statistical and technical documentation.

The explanation of general and special competencies is defined in “Map of subject competencies in academic discipline” (Appendix 1)

1.7. The list of learning outcomes:

LO AD 1.1. Demonstrate knowledge of the key concepts, principles, theories and doctrines of WTO law.

LO AD 1.2. Carry out an analysis of the main approaches to determining the nature and place of WTO law in the system of modern international public law, and propose and substantiate personal ideas and proposals regarding the relevant issues.

LO AD 1.3 Demonstrate knowledge of the specificity of the subject, special principles and sources of WTO law, as well as its system and structure.

LO AD 1.4. Carry out a logical, critical and systematic analysis of international documents in the field of trade: contracts, acts of international organizations, conferences, etc.

LO AD 1.5. Carry out a critical analysis of judicial and arbitration practice in cases related to the resolution of international trade disputes regarding the interpretation and peculiarities of the application of international legal rules in the relevant field.

LO AD 1.6. Demonstrate knowledge of the main stages of the WTO law evolution, its main institutions, characterize the current state and directions of further development of international legal trade cooperation in the context of globalization.

LO AD 1.7. Search for, independently study and analyze domestic and foreign international legal literature to conduct research into the current theoretical and practical issues of WTO law.

LO 1.8 Characterize the evolution and current status of the subjects of WTO law, demonstrate knowledge of trends in the further expansion of the scope of WTO law subjects.

LO AD 1.9. Determine the limits of legal personality of various participants in international trade relations; discuss the scope of competence of legal entities and their associations, non-governmental organizations in international trade legal relations.

LO AD 2.1. Identify problems of legal regulation within individual institutions of WTO law, propose ways to overcome them in accordance with the principles of WTO law, fundamental principles of international law, general principles of law, practice of international organizations and modern doctrinal developments on the relevant issues.

LO AD 2.2. Analyze the nature and content of the WTO dispute resolution procedure.

LO AD 2.3. Analyze the impact of WTO rules on national legislation, prospects of implementing WTO law into the national legal system.

LO AD 2.4. Characterize the stages of the development and principles of international legal cooperation in the field of ensuring trade security.

LO AD 2.5. Define the concepts and elements of international trade security, the main directions of interstate cooperation and institutional mechanisms in the relevant field.

LO AD 2.6. Demonstrate knowledge of the international legal rules aimed to ensure environmental safety in the context of implementation of the activities related to various stages of trade cycle.

LO AD 2.7. Determine international legal and political measures to prevent interruptions and ensure stability of supplies of various goods.

LO AD 2.8. Characterize current problems of the international trade relations development, single out directions and propose methods, possible models and tools for greening international legal cooperation in the economic and trade spheres.

LO AD 2.9. Demonstrate knowledge of the main mechanisms, rules and procedures of dispute resolution in WTO law.

LO AD 2.10. Provide professional advice on the essence and methods of international legal protection of the rights and interests of WTO law subjects.

The explanation of the results of mastering the academic discipline and the results of training by speciality and specialization is determined in the "Map of learning outcomes formulated in terms of competencies" (Appendix 2).

1.8. Modules of the academic discipline programme.

Module 1. General principles of establishing and functioning of the WTO.

Module 2. Basics of legal regulation of trade relations within the framework of the WTO. The mechanism for monitoring trade policy and resolving disputes within the framework of the WTO.

The programme of the academic discipline is a set of modules provided in a certain sequence, which contributes to acquiring certain competencies necessary to achieve specified learning outcomes. Each module has a certain logical completeness in relation to the learning outcomes required by the educational and professional programme as a whole. Topics are not defined within the module.

The modular principle of the academic discipline programme design ensures the flexibility of its content, which is reflected in the possibility of differentiation and integration of the discipline. Continuity of a meaningful and logical transition between the modules of the academic discipline programme, as well as the increase of new knowledge, becomes possible due to the application of the "didactic spiral" principle.

The number of didactic components of the content of the academic discipline must correspond to its structure and the actual study time.

The didactic scope of the academic discipline is determined by the developer in an expert manner with a focus on the subject area of the discipline, as well as on competences and learning outcomes.

Quantitative and qualitative indicators of the implementation of the academic discipline programme within the didactic structure are defined in the taxonomy of the academic discipline.

The explanation of the modules of the competence-oriented programme of the academic discipline is determined in the matrix of links between the modules of the academic discipline, learning outcomes and academic discipline competencies (Appendix 3).

2. Description of the academic discipline (components)

| Year of study | Level of education, field of knowledge, speciality | Didactic structure and number of hours |
|--|---|---|
| Number of ECTS credits: 4.0 Number of modules: 2 The total number of hours: 120 Weekly hours: 4 | Level of education – the second (master) Field of knowledge - 29 "International Relations" Speciality - 293 "International Law" | Module 1 Lectures: 8 Practical classes: 8 Individual work: 40 Module 2 Lectures: 10 Practical classes: 12 Individual work: 42 Types of control: current control; final control (credit) |

3. The content of the academic discipline

Module 1. General principles of establishing and functioning of the WTO

Legal order in the international legal system. The concept of "international trade system"; the content of the concepts "legal economic order" and "trade order"; features of international trade law; two sides of the international trade order. Principles of international trade law.

Historical development of GATT. Multilateral trade negotiations. Historical

ideas of national associations: historical and theoretical prerequisites for the creation of trade organizations.

"Wine and Cloth": David Ricardo's Law of Comparative Advantage. The history of the GATT creation. International organization GATT-1947. Development and adoption of the General Agreement on Tariffs and Trade of 1947. Temporary application of GATT-47. Multilateral trade negotiations: their basics.

The World Trade Organization as an international organization. The establishment of the World Trade Organization: the reasons for the creation of the WTO, the process of its creation. Role, goals, and functions of the WTO. Release from obligations. Structure of the WTO: Conference of Ministers, General Council, Secretariat, councils within the framework of the WTO, committees. Legal status of the WTO. The WTO decision-making procedure.

Membership in the World Trade Organization. General membership questions. Customs territory as a WTO member. Different level of commitment. WTO accession procedure and accession process. Membership at the current stage.

Ukraine and the WTO. The history of Ukraine's accession to the WTO. Direct effect of WTO law in Ukraine; regulatory and legal regulation of relations between Ukraine and the WTO. Implementation of WTO law into Ukrainian legislation.

Module 2. Basics of legal regulation of trade relations within the framework of the WTO. The mechanism for monitoring trade policy and resolving disputes within the framework of the WTO.

Structure of WTO law. Basics of classification of WTO law: universally binding treaties; optional contracts. Agreement on liberalization reached within the framework of the WTO. Havana Charter and WTO. Duty to implement WTO law. Development of WTO law.

General Agreement on Tariffs and Trade. Formation of GATT: rounds of negotiations; elaboration of the GATT-1947 text. Disadvantages of GATT-47; changes made to GATT-47 during the Uruguay Round. Structure of GATT-1994. General characteristics. Development of WTO law.

Interpretation of WTO law. The sequence of interpretation of WTO law.

Authentic interpretation. A requirement for interpretation. Context. Things to consider when interpreting the context. Additional means of interpretation.

Multilateral agreements on trade in goods. Agreement on the application of Art. VII GATT of 1994 ("Customs Valuation Code"). Agreement on pre-shipment inspection. Agreement on rules of origin determination. Agreement on import licensing procedures. (*Appendix 1a. Transit of goods across the border*).

Anti-dumping Code. Agreement on protective measures. Agreement on technical barriers to trade. Agreement on Trade-Related Investment Measures (TRIMs). Agreement on subsidies and compensatory measures. (*Appendix 1a. Production of goods and anti-dumping measures*).

Agreement on the application of sanitary and phytosanitary measures. Agreement on agriculture (*Appendix 1a. Agricultural aspect*).

Legal regulation of trade in services (GATS). Appendix 1B.

Legal regulation of trade-related aspects of intellectual property rights under the WTO: Agreement on Trade-Related Aspects of Intellectual Property Rights (TRIPS), *Annex 1C.*

Formation of the dispute resolution system within the framework of GATT/WTO. General characteristics of the dispute resolution system within the framework of the WTO: interstate nature of disputes within the framework of the WTO; the principle of peaceful settlement of disputes and the dispute settlement mechanism of the WTO. Object and purpose of the Agreement on Rules and Procedures for Dispute Resolution. Covered agreements.

General rules for resolving disputes (principle of due process - Due Process).

Dispute resolution procedure: general description of normal procedures; special rules of additional dispute resolution procedures.

Normal procedures. General applicable procedures. Consultations. Consideration of disputes by arbitration courts. Content of the report of the arbitration panel. Appeal. Legal force of acts which are applied within the WTO dispute settlement mechanism. Requirements for the implementation of decisions and recommendations of Dispute Resolution Bodies within a reasonable period of

time. Dispute regarding the availability of, or comparability with, measures covered by the Agreement taken to implement the recommendations and decisions of the dispute resolution body. Temporary measures applied in case of non-implementation of recommendations and decisions within a reasonable time. Opportunities to challenge termination of concessions in arbitration.

Special rules for additional dispute resolution procedures. Special dispute resolution mechanisms. Dispute resolution body.

Trade policy monitoring mechanism. Objectives and frequency of trade policy monitoring of WTO member countries. Trade policy monitoring body. The procedure for preparing and holding a trade policy review meeting.

4. Resource support of the academic discipline

4.1. Forms of organization of the educational process and types of classes:

- forms of organization of the educational process: classes; individual work; practical training; control measures;

- types of classes: lectures, practical classes, individual classes, consultations.

4.2. Individual work of students

Individual work is a type of extracurricular self-study activity aimed at studying the educational material included in the course programme. When performing individual work, students must independently process lecture notes, recommended literature, regulatory acts, materials of empirical research on the topics presented in practical classes.

Forms of individual work are: individual final written work; revision of lecture materials; work in information networks; writing scientific reports on highly specialized issues; preparing thematic presentations; preparing and publication of scientific articles, theses, etc.; developing schemes, tables on the topics of primary discipline; writing annotations of scientific articles and monographs; analysing draft laws and changes to legislation.

The students' independent work involves studying additional educational and scientific literature, dispute resolution procedures in the WTO; familiarization with

the WTO regulations and the trade policy monitoring mechanism. Individual work is intended to deepen the students' knowledge of the topics covered by the academic discipline.

4.3. Educational technologies and teaching methods

- educational technologies: problem-based learning, contextual learning, student-centred learning, audiovisual technologies, scholarly discussions, interactive technologies, IT technologies, etc.;

- teaching methods: a combination of verbal, visual and practical methods, problem-based teaching method, press conferences, business games, brainstorming, simulation of professional situations, case study method, discussion method, round table, etc..

4.4. Forms of pedagogical control and the system of assessment of the quality of acquired competences as the outcomes of studying the academic discipline

Forms of control of students' knowledge are current and final assessment.

Current control of students' knowledge includes:

- quality control of students' mastering the academic discipline programme material at the practical classes using the following tools: oral, written or express questioning, practical tasks or problems solving, participation in a case development, preparation and defense of an essay on the topic chosen by a student. The purpose of the current control is to determine the level of students' training. During the seminars, a student can get a grade on a five-point scale (0, 3, 4, 5);

- quality control of students' mastering the academic discipline programme material is conducted at the end of the modules in the form of a colloquium.

During the semester, students perform tasks for individual work (preparation of a presentation, essay, report, etc.). The maximum number of points for individual work is 20 points.

The form of final control of students' knowledge of the academic discipline is a credit test. The minimum number of points to receive a credit is 60 points.

Distribution of points between the organizational forms of the educational process and types of control measures:

| Current control | | | | | Final control of knowledge (credit test) |
|-------------------|---------------------------------|-------------------|---------------------------------|-----------------------------|--|
| Module No. 1 | | Module No. 2 | | Individual work of students | |
| Practical classes | Testing/control work/colloquium | Practical classes | Testing/control work/colloquium | | |
| max 24 | max 14 | max 30 | max 12 | max 20 | max 100 |

Criteria of assessment of learning outcomes:

| Type of Control | Points | Criteria |
|---|-----------|---|
| Current control at practical classes | Max 5 | Excellent mastering of the topic material with some possible minor shortcomings. |
| | 4 | Good mastering of the topic material, but there are some mistakes. |
| | 3 | Satisfactory level of the topic material mastering with significant number of mistakes. |
| | Min 0 | Unsatisfactory level of the topic material mastering. |
| Testing/control work/colloquium | Max 14/12 | High results of the material processing with a small number of possible insignificant mistakes. |
| | 6 | Satisfactory level of the material mastering. |
| | Min 0 | Unsatisfactory level of the material mastering. |
| Assessment of students' individual work | Max 20 | Thorough knowledge of issues related to the research topic; fluency in the material, ability to think independently and creatively, find, generalize, and analyze the material, make independent theoretical and practical conclusions. |
| | 15 | The main issues are covered superficially, the conclusions are not independent. |
| | Min 0 | The main provisions of the topic are covered superficially, with a considerable number of errors; there are no conclusions; the student has mastered the research material poorly. |

| | | |
|-------------|---------|---|
| Credit test | Max 100 | Excellent mastering of the academic discipline material. |
| | Min 60 | Sufficient mastering of the academic discipline material. |

Appendix 1

Map of subject competencies in academic discipline

| Code and name of competences by speciality and/or specialization | Code and name of competences by academic discipline |
|---|--|
| GC – general (universal) competencies. (choose competencies according to the content of the academic discipline) | SC – subject competences in academic discipline |
| GC 1. Ability to think critically, analyze and synthesize. | SC 4. Ability to analyze legal phenomena, legal facts, legal norms and legal relations related to the subject of WTO law. SC 7. Ability to analyze, interpret, and correctly apply the categories of WTO law which have been studied. |

| | |
|--|---|
| | <p>SC 8. Ability to correctly interpret and apply rules of WTO law in professional activity and explain the specificity of applying various sources of WTO law.</p> <p>SC 15. Ability to assess the degree of effectiveness of legal regulation of certain spheres of international energy relations and determine the prospects for the development of relevant legal regulation.</p> |
| GC 2. Ability to identify, pose and solve problems. | <p>SC 9. Ability to independently identify and research legal issues arising in the context of legal regulation of international trade relations in various areas.</p> <p>SC 17. Knowledge of the main mechanisms and procedures of dispute resolution and ability to reproduce the main approaches and methods of dispute resolution used by international judicial and arbitration institutions using game simulation.</p> <p>SC 19. Ability to conduct analytical research on the theory and practice of WTO law.</p> |
| GC 6. Ability to work effectively in an intercultural environment, including developing and managing international projects. | <p>SC 5. Ability to determine the legal status of various participants in international relations, the scope of their international legal personality in the relevant field and the possibility to impact on international trade policy.</p> <p>SC 6. Ability to provide a general international legal description of the leading international intergovernmental organizations in the energy sector.</p> <p>SC 21. Ability to analyze documents of international organizations, international conferences, international judicial institutions and characterize their impact on the regulation of various spheres of international trade relations</p> <p>SC 23. Ability to work with international acts in various spheres of international trade relations, including statistical and technical documentation.</p> |
| GC 7. Ability to conduct research at an appropriate level. | <p>SC 4. Ability to analyze legal phenomena, legal facts, legal norms and legal relations related to the subject of WTO law.</p> <p>SC 7. Ability to analyze, interpret, and correctly apply the categories of WTO law which have been studied.</p> <p>SC 9. Ability to independently identify and research legal issues arising in the context of legal regulation of international trade relations in various areas</p> <p>SC 16. Ability to identify the shortcomings of current approaches to the legal regulation of certain</p> |

| | |
|--|---|
| | <p>spheres of international trade relations and propose ways to improve them.</p> <p>SC 18. Ability to use information technologies and databases in the process of collecting and processing information within a specific topic in the field of WTO law.</p> <p>SC 19. Ability to conduct analytical research into the theory and practice of WTO law.</p> |
| <p>GC 9. Ability to solve problems of an innovative nature and to find alternative solutions in professional activity.</p> | <p>SC 9. Ability to independently identify and research legal issues arising in the context of legal regulation of international trade relations in various areas.</p> <p>SC 10. Ability to explain the peculiarities of international legal regulation of relations in the field of trade and the specificity of the competence of various participants in these relations.</p> <p>SC 13. Ability to determine environmental protection aspects of international legal cooperation in the field of trade, assess prospects, identify directions for further greening of international trade relations in view of initiatives to counteract and combat climate change, prevent and respond to pollution of the atmosphere, marine environment, etc.</p> <p>SC 14. Ability to conduct legal expertise of WTO agreements and acts of domestic law which relate to international trade activities.</p> <p>SC 17. Knowledge of the main mechanisms and procedures of dispute resolution and ability to reproduce the main approaches and methods of dispute resolution used by international judicial and arbitration institutions using game simulation.</p> <p>SC 18. Ability to use information technologies and databases in the process of collecting and processing information within a specific topic in the field of WTO law.</p> <p>SC 20. Ability to provide qualified consultations and legal opinions on specific issues of the theory and practice of WTO law.</p> <p>SC 22. Ability to identify and evaluate current challenges in the field of international trade security, knowledge of the main international acts and organizational means of maintaining international trade security.</p> |

| | |
|---|---|
| <p>GC 10. Ability to process (collect, obtain, conduct systematization and synthesis) large volumes of information from various sources, to analyze and critically and constructively evaluate it, taking into account cross-cultural characteristics of the subjects of international relations.</p> | <p>SC 5. Ability to determine the legal status of various participants in international relations, the scope of their international legal personality in the relevant field and the possibility to impact on international trade policy.</p> <p>SC 10. Ability to explain the peculiarities of international legal regulation of relations in the field of trade and the specificity of the competence of various participants in these relations.</p> <p>SC 11. Knowledge and understanding of the main provisions of legal regulation of various activities of WTO legal entities in the field of trade, transportation, transit of goods and services.</p> <p>SC 12. Knowledge and understanding of the specificity of current legal regulation of relations between various subjects of WTO law.</p> <p>SC 13. Ability to determine environmental protection aspects of international legal cooperation in the field of trade, assess prospects, identify directions for further greening of international trade relations in view of initiatives to counteract and combat climate change, prevent and respond to pollution of the atmosphere, marine environment, etc..</p> <p>SC 14. Ability to conduct legal expertise of WTO agreements and acts of domestic law which relate to international trade activities.</p> <p>SC 18. Ability to use information technologies and databases in the process of collecting and processing information within a specific topic in the field of WTO law.</p> <p>SC 19. Ability to conduct analytical research into the theory and practice of WTO law.</p> <p>SC 23. Ability to work with international acts in various spheres of international trade relations, including statistical and technical documentation.</p> |
| <p>GC 11. Ability to use the latest information and communication technologies for professional purposes.</p> | <p>SC 18. Ability to use information technologies and databases in the process of collecting and processing information within a specific topic in the field of WTO law.</p> <p>SC 23. Ability to work with international acts in various spheres of international trade relations, including statistical and technical documentation.</p> |
| <p>GC 12. Ability to formulate and express personal opinion, and to substantiate it properly.</p> | <p>SC 1. Ability to formulate and express personal position supported by the arguments as to the current issues of WTO law.</p> <p>SC 2. Knowledge of general theoretical concepts and concepts of WTO law, principles of WTO law, their correlation with the principles of other branches of international law, as well as the content,</p> |

| | |
|---|--|
| | <p>specificity, and the current state of development of the main institutions of WTO law.</p> <p>SC 3. Knowledge of the stages of formation, periodization of development, concepts and approaches to defining the concept of WTO law and its place in the system of international public law.</p> <p>–SC 6. Ability to provide a general international legal description of the leading international intergovernmental organizations in the energy sector.</p> <p>SC 8.
