5. Forms of pedagogical control and means of assessing learning outcomes

Assessment of the results of mastering the academic discipline " Financial Law " involves conducting current and final control and is carried out on the basis of a cumulative point-rating system.

Current knowledge control includes:

- quality control of students' mastery of the program material of the academic discipline during *practical classes* using the following means: oral, written or express survey, solving practical tasks or problems, participation in the development of a case, defense of an essay or abstract at the initiative of the student. Current control aims to check the level of preparation of the student for studying the current material. During the practical class, the student can receive a grade on a four-point scale (0, 3, 4, 5);
- quality control of students' mastery of the program material of the academic discipline, which is carried out at the end of the modules in the form of a test or colloquiums;
- students complete tasks for *independent work during the semester* (preparation of a presentation, essay, abstract, etc.). The maximum number of points for independent work is 8.

The form of *final control* of knowledge of higher education applicants in the academic discipline is an exam. The maximum number of points that a student can receive for the exam is 60. The minimum score of the results of the current control and independent work, which allows a student to take the exam, is 25 points.

Distribution of points between forms of organization of the educational process
and types of control measures:

Current control								Independent work of students	Final control (exam)	Final knowled ge assessm ent
Module No. 1		Module No. 2		Module No. 3		Module No. 4				
p/s, s/s	colloquium	p/s, s/s	colloquium	p/s, s/s	colloquium	p/s, s/s	colloquium			
max 6	max 2	max 6	max 2	max 6	max 2	max 6	max 2	max 8	max 60	max 100

6. Criteria for assessing learning outcomes

Type of control	Number of points	Criteria (for each assessment)
Current control in a practical lesson	Max 5	Excellent mastery of the educational material on the topic, some minor shortcomings are possible
	4	Good understanding of the topic, but there are some errors
	3	Satisfactory level of mastery of the material, a significant number of errors
	Min 0	Unsatisfactory level of material acquisition
Colloquium	Max 5	The results of processing the material are high, a small number of minor errors are possible
	4	Good understanding of the topic, but there are some errors
	3	Satisfactory level of mastery of the material, a significant number of minor errors
	2	Satisfactory level of mastery of the material, a significant number of significant errors
	1	Gaps in knowledge, the student has a poor grasp of the work material
	Min 0	Unsatisfactory level of material acquisition
Assessment of student independent work	Max 10	Deep knowledge of problems related to the research topic, fluent command of the material, ability to think independently and creatively, find, generalize, analyze material, and draw independent theoretical and practical conclusions
	8	The work reveals the main provisions of the topic, but there are some inaccuracies in the presentation of the material, theoretical concepts are not sufficiently supported by factual data.
	6	The main points of the topic are covered, but some issues are not covered fully. The student has a good command of the material, but lacks creativity and independence in research.
	4	The main theoretical issues are covered superficially, there are no conclusions or the conclusions are not independent; the student has a poor grasp of the material

	2	The main points of the topic are covered superficially, theoretical points are not supported by factual material; there are no conclusions; the student has a poor grasp of the material of the work
	0	The main points of the topic are covered superficially, with a large number of errors; there are no conclusions; the student does not have a good grasp of the material of the work
Exam	Mach 60	1. Comprehensive, systematic and in-depth knowledge of the material provided by the curriculum of the academic discipline, including orientation in the basic scientific doctrines and concepts of the discipline. 2. Mastering the main and additional literature recommended by the department. 3. Ability to independently replenish knowledge in the discipline and use the acquired knowledge in practical work
	55	1. Complete knowledge of the material provided by the curriculum of the academic discipline. 2. Mastering the main literature and getting acquainted with additional literature recommended by the department. 3. Ability to self-sow replenishment of knowledge in the discipline, understanding its importance for practical work
	50	1. Sufficiently complete knowledge of the material provided for in the curriculum of the academic discipline, provided that there are no significant inaccuracies in the answer . 2. Mastering the basic literature recommended by the department. 3. Ability to independently replenish knowledge in the discipline, understanding its importance for practical work
	45	1. Knowledge of the basic material provided for by the curriculum of the academic discipline, in an amount sufficient for further study and future professional work . 2. Mastering the basic literature recommended by the department. 3. Errors and significant inaccuracies in the answer to the exam in the presence of knowledge for them self- removal or with the help of a teacher
	40	1. Knowledge of the basic material provided for by the curriculum of the academic discipline, in an amount sufficient for further study and future professional work. 2. Familiarization with the basic literature recommended by the department. 3. Errors in the exam answer if you have the knowledge to eliminate the most significant ones with the help of a teacher
	35	1. Gaps in knowledge of certain parts of the basic material provided for by the curriculum of the academic discipline . 2. The presence of errors in the exam answer.
	0	1. Lack of knowledge of a significant part of the basic material provided for in the curriculum of the academic discipline . 2. Inability to continue education or to carry out professional activity without taking a repeat course in this discipline

7. Pedagogical control for higher education students

full-time/part-time teaching

Scale of final pedagogical control

Rating on the ECTS scale	Definition	Rating on a national scale	Rating on the 100-point scale used in the New Zealand Law School
AND	Excellent – excellent performance, with only a small number of errors	5	90–100
IN	Very good – above average with a few errors	4	80–89
WITH	Good – generally correct work with a certain number of minor errors		75–79
D	Satisfactory – not bad, but with a significant number of shortcomings	3	70–74
THERE ARE	Sufficient – performance meets minimum criteria		60–69
FX	Unsatisfactory - needs work before reassembling	2	35–59
F	Unsatisfactory – serious further work is required, mandatory retake		0 – 34

8. Educational, methodological and informational support

academic discipline

Educational, methodological and information support

academic discipline
